

## Colorama DC6000

# UNICOLOR

This is a transparent universal wood stain with outstanding color fastness and stability used to stain wood works for internal and external use.

### Properties and Areas of Use

- Tough, hard wearing flexible film, with excellent stability and weathering resistance
- Good chemical resistance, and excellent water resistance
- Cures at low temperatures

### Technical Coating Data @ 25 °C for mixed material

<b>Finish</b>	Matt
<b>Color Range</b>	Transparent Colors (Brown, Red, Yellow, Black, Orange, Mahogany ..... etc)
<b>Solids Volume</b>	40 ± 2%
<b>Dry Film Thickness Range</b>	25-50 µm
<b>Theoretical Spreading Rate</b>	16 m <sup>2</sup> / L @ 25 microns DFT (loss factors will apply in practice)
<b>Surface Dry</b>	1 hour.
<b>Recoat Interval</b>	8 hours minimum
<b>Pot Life</b>	Single pack
<b>Flash Point</b>	28°C
<b>Shelf Life</b>	12 months (stored in a cool dry place)
<b>Mixing Ratio by Weight</b>	Single pack
<b>VOC</b>	614 g/L
